June 24, 2022

In preparation for the start of the 2022/2023 school year, prior to submitting your request(s) please take a few minutes to review the following information regarding requests for transportation to or from alternate sites.

Parameters/Requirements for Alternate Site Transportation:

- In the morning:
the same stop/location will be used by the student five (5) days a week.
- In the afternoon:
the same stop/location will be used by the student five (5) days a week.
- Locations in the AM and PM can be different (i.e. from home in the morning and to an alternate site in the afternoon).
- Students who are in a shared parenting/custody situation may, upon confirmation of necessary documentation in PowerSchool and/or with the school of attendance, utilize different stops (i.e. Wednesday afternoon and Thursday morning, every other Friday, etc.) and/or every other week. These arrangements may take longer to process based on the requirement to complete further research.
- Alternate Site Requests require a minimum of three (3) business days to arrange and execute, service will not start until the student's schedule populates in PowerSchool.
- All alternate site locations must be within the same attendance boundary for the school which the student attends, unless the student is overflowed or administratively placed, then they must be served to/from an alternate site within the home school of assignment OR the school of attendance.
- Shuttling between schools is not permitted for alternate site purposes (unless an overflow situation is involved. See previous bullet point).
